RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

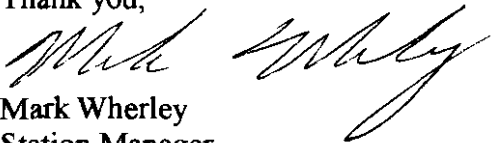

I am contacting you today in regards to the Comcast and NBC joint venture. It is clear from our experience working with Comcast that this is a company dedicated to advancing local communities and we believe that this partnership will bring even more opportunities for local programming.

Adams Community TV is non-profit community media company. We are dedicated to improving the lives of the people in South Central Pennsylvania by providing information about local talents, our area's unique history and local residents, as well as hometown athletic and cultural events.

It's no exaggeration to say that without the help of Comcast, our organization would have never been able to take off. Comcast has not only added our channel to its digital lineup in the York area but it has also helped our organization secure grants through Gettysburg Borough. Comcast understands the importance of quality local programming that directly reaches out to Pennsylvanians. Because of their support we are now able to deliver 1,500 programs to 32,000 citizens annually.

We are convinced that once Comcast combines with NBC, there will be even more local programming opportunities and we hope you will join us in supporting this promising joint venture.

Thank you,

Mark Wherley  
Station Manager

RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am contacting you today in regards to the Comcast and NBC joint venture. It is clear from our experience working with Comcast that this is a company dedicated to advancing local communities and we believe that this partnership will bring even more opportunities for local programming.

Adams Community TV (ACTV) is non-profit community media company. We are dedicated to improving the lives of the people in South Central Pennsylvania by providing information about local talents, our area's unique history and local residents, as well as hometown athletic and cultural events.

It's no exaggeration to say that without the help of Comcast, our organization would have never been able to take off. Comcast has not only added our channel to its digital lineup in the York area but it has also helped our organization secure grants through Gettysburg Borough. Comcast understands the importance of quality local programming that directly reaches out to Pennsylvanians. Because of their support we are now able to deliver 1,500 programs to 32,000 citizens annually.

We are convinced that once Comcast combines with NBC, there will be even more local programming opportunities and we hope you will join us in supporting this promising joint venture.

Sincerely,
